Section 4: Policy Compliance Notes

- All business meals included attendee names and affiliations per entertainment expense policy (Policy FIN-2024-007, Section 4.3).
- Hotel rate of \$289/night exceeds the standard per diem of \$250/night for Las Vegas; however, the Venetian was the designated conference hotel and the corporate rate was the lowest option within walking distance. Rate exception pre-approved by CTO on Nov 10, 2025 (ref: TRV-2025-1101-VASQ).
- Personal meals totaling \$60.00 fall within the company daily per diem allowance of \$75/day for individual meals without business purpose.
- Conference registration of \$1,799.00 was pre-approved under annual professional development budget; should be charged to CC-4400-TRN, not standard travel cost center.
- No alcohol expenses included. All business meal receipts itemized to exclude alcoholic beverages per company policy.

Section 5: Outcomes & Business Justification

The trip achieved all three stated objectives. At AWS re:Invent, I attended 12 technical sessions on serverless architecture and AI/ML integration that will directly inform our 2026 product roadmap. The dinner meeting with Meridian Corp resulted in a verbal commitment to proceed with a \$2.4M cloud migration engagement, with a formal proposal requested by January 15, 2026. The woking lunch with Apex Healthcare's CTO led to an agreement to pilot our SecureShield platform in their development environment, with a signed pilot agreement expected by mid-January. These outcomes represent an estimated pipeline value of \$3.8M against a total trip cost of \$4,501.30.

Section 6: Declaration & Signatures

I certify that the expenses listed above were incurred for legitimate business purposes and that all information is accurate. I have not and will not seek reimbursement from any other source. I understand that submitting false or inflated expense claims is a violation of company policy and may result in disciplinary action, including termination.
